

To have and to hold.

A new life. A healthy beginning. A bright future. That's every parent's dream for their child. And that's the goal of the March of Dimes® – to bring about a day when every baby is born healthy. They've created breakthrough preventive care programs. Funded lifesaving research. And taught prenatal education to countless expectant parents. But there's still more to be done.

This year, CIGNA and the March of Dimes are celebrating 10 years of saving babies together. We're very proud to be a national sponsor of the March of Dimes WalkAmerica. Together we can help create small miracles for families everywhere. For more information, visit their Web site at www.walkamerica.org.
